---

With the new Estate model Mercedes-Benz will expand the C-Class family starting in September 2014. The Estate shines with a clear and at the same time emotional-sporty design, innovative technology, variability and a cargo volume enlarged even beyond that of the predecessor model. Its high-class, sophisticated interior makes modern luxury tangible with design highlights.

With these qualities the Estate reinforces its reputation as a multifaceted lifestyle vehicle with outstanding properties for everyday use. In addition, with its many new assistance systems it not only offers the highest standards of safety, but thanks to intelligent lightweight construction, exceptional aerodynamics and new economical engines it also sets new efficiency benchmarks in its segment.

The new C-Class Estate combines a striking, dynamic design and high-class appointments with outstanding variability and a high level of utility. With its versatility it also adapts to a wide variety of requirements. As a stylish, sporty space vehicle it accompanies active, modern people on shopping sprees, on vacation or when playing sports, and is suitable for families in every respect. Consequently, it continues the tradition of the C-Class Estates, which all in their own time combined demands on lifestyle, sportiness and practicality in an estate car, in the fourth generation on a new level.

Prof Dr Thomas Weber, Member of the Board of Management of Daimler AG responsible for Group Research and Mercedes-Benz Cars Development: "The new C-Class Estate is not only extremely practical thanks to its large, variable load compartment. With its state-of-the-art technical features it also strikes out in new directions in its segment with regard to safety, efficiency and comfort. And both men and women drivers enjoy noticeably more driving pleasure".
