Episode Twenty Five / Toyota 86

In this episode Damo gets up close and personal with the impressive Toyota 86.

If you want to see what all the hype is about and why there is such a long waiting list, check out this feature.

Toyota 86

The 86 is designed to bring back the sheer exhilaration of sports car driving. It has been developed by and for people with a genuine passion for sports cars.

Called the 86 partly in tribute to its predecessor, the AE86, and partly to signify its 86mm x 86mm bore and stroke.

The 86 is the latest in a long line of exciting sports cars from Toyota. It builds on Toyota's heritage of rear-wheel drive, front-engine sports cars dating back to 1965 with the Sports 800. This was followed by other track-bred cars including the 2000GT, which was generally accepted as Japan's first 'supercar' and the AE86 - the car that is still a favourite with enthusiasts today.
